American Matters and Gibbon.

Gibbon carefully studied for himself the questions at issue in the American war. From Israel Mauduit, the agent of Massachusetts Bay, and from Governor Hutchinson he gathered material for forming an independent judgment. "I think," he says, "I have smoked them very dry, and if my confidence was equal to my eloquence, and my eloquence to my knowledge, perhaps I might make no very intolerable speaker."

It is curious to note in his letters the apathy of parliament on the subject. "In this season and on America," he writes in May, 1775, "the Archangel Gabriel would not be heard." His own opinion was on several points, adverse to the policy of the government, which, except on one occasion, he steadily supported. He was one of those incontinent men who attach themselves to political leaders rather than to political principles. For Lord North he felt a warm affection, and throughout voted with him, sometimes against his better judgment.

His speech would probably have been silver, his silence was certainly golden. In 1778 he was appointed a commissioner of trade and plantations, with a salary of £750 a year. Fox believed that he had been bribed by office and expressed the belief in the lines:

King George, in a flight
Left Gibbon almost white.
The story of England's disgrace,
Thought no way so sure
To give the historian place.

Gibbon held the appointment till the abolition of the office in 1793.—Nineteenth Century.

A City of Bridges.

Few people realize that Chicago today possesses more bridges in number than any other city in America. Collectively they constitute a greater total length in miles than any other system.

The extent of a single span of one of the swing bridges is greater than that of any other bridge. Modern bridge construction is embodied in and illustrated with a greater variety of perfected mechanical devices in Chicago than in the case in any other city in the world.

Standing out like monuments erected to engineering skill, to a people's enterprising and adventurous spirit, these bridges present a greater variety of admirable features and are evidences of better workmanship than can be found in the best of all the cities in either the old or the new world.

Chicago has 68 bridges spanning the river and its branches at every point where commerce and traffic demand a passageway. There are 58 systems of viaducts, which respect as many safe-guards for the people against the dangers of railroad transportation.

Represented among these 68 bridges is to be found every description of a bridge or drawbridge which the world possesses today that is of practical value. They constitute with in a radius of a few miles a complete system of mechanical devices which combine their own perfection with the diversity of arrangements.—Chicago Engineer.

A Day's Interesting Visits.

A bright day was spent at the American River, Mass., by Billy, the dog every Sunday morning goes to the Maplewood and stays in the cashier's office, but never goes away from the American on other days unless taken to the Maplewood. Sunday, irregularly as that day counts, in the reason, the animal takes up his daily march for the other house, and the only day and return. This is a custom for the past few seasons, and so regularly that the guests at the Maplewood have known the difference between Sunday and other days as the dog's presence before the church bells begin to ring.—Boston Herald.

Noise and Numbness.

A Yankee, upon eating his first meal of frog legs, a la la, the proprietor how he agonized for the high price. He was told it was on account of the scarcity of the product. "Not at all," said the Yankee. "I can get you 1,000,000." "A million?" gasped the boniface. "I should like to engage to find you a profitable market if you can produce them." "Why, I can get them today surely." At night the Yankee came back with eight pairs and declared the trick off. "I thought you said you knew where you could get 1,000,000," said the boniface. "Well, to tell you the truth," explained the other, "I formed my judgment of the number by the noise."—San Francisco Argonaut.

An agriculturist of Westphalia made a bet that 12 bees, released at a distance of three miles from the hives at the same time as 12 pigeons, would travel over the ground as quickly as the birds. The first bee entered the hive one quarter of a minute before the first pigeon reached its colony. Three other bees arrived before the second pigeon, and the remainder of the competitors reached home simultaneously.

As He Understood It.

"Well, Tommie, I hear you've got a new baby at your house."

"Yes."

"I suppose it's a red little chap, isn't it?"

"No, it's a little yellow."—Cleveland Leader.

THE MORMON CHURCH AND POLITICS.

Hon. Moses Thatcher of Salt Lake City has the reputation of being one of the most liberal and popular men in Utah. He held a high position in the Mormon Church, and a year ago when Utah was preparing for admission as a State he took an active part in politics. Though other church dignitaries did likewise he alone was called to account for his conduct by the church. So pronounced was the hostility of the church to his candidacy, that it doubtless tended to defeat him, for while the Mormon Church professed to be out of politics, the fact that it called Mr. Thatcher to account for going into politics without first obtaining the permission of the church, proved the contrary. Now the political party with which Mr. Thatcher is affiliated, is in the ascendancy in Utah, and his name is favorably mentioned in connection with United States Senator from that State. Apparently for no other purpose than to create prejudice against him in the minds of the members of the Legislature, who are members of the Mormon Church, he was deposed from the quorum of the twelve apostles and notice to that effect has been published in the Deseret News, the official organ of the Church of Jesus Christ of Latter Day Saints. The News also states that his election to the United States Senate would be a direct assault upon the church and would be resented as such.

The Mormon Church announced before Utah was given Statehood that it was out of politics, but its action in the case of Mr. Thatcher indicates that it is yet up to its mouth in the filthy pool. If, as it appears to outsiders, the church has no complaint against Mr. Thatcher, except that he engaged in politics without its consent, it is furnishing the most convincing evidence that it is deep in the political mire and is using all the power at its command to control the political action of its members. If Mr. Thatcher is in other respects qualified for United States Senator the people of Utah cannot afford better proof that the new State is free from church control than by electing him United States Senator.

THE CHURCH OF HUMANITY.

During the recent campaign the Chicago churches joined with the trusts, and the corporation owned newspapers in misrepresenting the advocates of bimetallicism. Every Sunday the pampered preachers of the windy city talked gold and very little else in their pulpits. This disgusted very many good citizens, persons of all religious denominations, who thought it possible that people might favor the payment of obligations in the money named in the bond, and the restoration of silver to its historic standard, and not be repudiationists or anarchists, and a number of those good people have decided to have an organization of their own. They find that in very many of the churches of the city poor people are not welcome and they propose to have a church in which the laborer in overalls will be treated with as much courtesy as the bondholder in broadcloth. They have decided to call the organization "The Church of Humanity." The leaders of the movement are Colonel A. C. Cram, Professor R. M. Johnson, J. P. Bishop, Charles P. Sney, George A. Williams and Colonel Drake. They are Methodists, Catholics, Presbyterians and Episcopalians and Rev. Flavius J. Probst, who was one of the most active advocates of the silver cause in the late campaign has been engaged for pastor.

The founders say the attitude of some of the pulpits on the financial question during the campaign has driven a large number of church-going people from sympathy with the rich church organizations, and to accommodate them it is proposed to have several branches of the Church of Humanity in the city. Mr. Probst has gained the sympathy of the masses and it is expected that a large number of people who are not familiar with the inside of churches will attend his services when they feel assured that they are welcome.

POLICEMEN TO STRIKE.

The police force of Helena, Montana, from Marshal to patrolman, have inaugurated a strike against the city to go into effect December 1st. Their grievance is that they cannot dispose of the city warrants in which their salaries are paid. The warrants given them last month are refused by merchants at any price and they cannot dispose of them at five cents on the dollar. The city indebtedness exceeds the limit provided by the charter and as there is no money to pay the warrants, they cannot be collected by process of law.

The police force of a city has never yet gone out on strike and it is thought that Helena will have the distinction of being the first to adopt the system of police strikes. The men cannot afford to work for nothing and as the warrants in which they are paid are valueless they propose to quit in a body and leave the city without a peace guardian.

The official reports of the crops in European Russia show a deficiency of 16,000,000 quarters of grain as compared with the average of the last fifteen years.

THE ARBUCKLE MURDER.

Detectives Tracing His Footsteps the Night of the Murder.

New York, November 21.—Further light upon the movements of F. P. Arbuckle of Denver in the hours immediately preceding the time when he was found dying in a lonely spot in the northern part of the city Thursday morning has been found by detectives. Arbuckle went to the St. Charles Hotel on Sixth avenue and Forty-fourth street after leaving Lagrange on Thirty-third street near Sixth avenue. He arrived at the St. Charles at 12:45 A. M. and introduced himself to the bartender, Fred Kinsworth. He was accompanied by a cabman and two men whom he picked up on the sidewalk. The party had drinks together.

Arbuckle at the time had his watch money and jewelry. He was very much under the influence of liquor. Kinsworth told the detectives that he suggested to Arbuckle to leave his money and valuables in the hotel safe and take a room for the night, as he was not in a condition to take care of himself. "Oh, I'm all right," Arbuckle is said to have replied. He left the hotel alone, walked down Sixth avenue and boarded a north-bound elevated railway train. Arbuckle reached the terminus of the elevated road at 155th street at 1:45 o'clock, descended to the street and was seen to walk south on Eighth avenue.

He had a watch and diamonds in his possession. Detective O'Brien of the Detective Bureau practically admitted his belief that Arbuckle had been murdered. Four men, charged with knowing something about how Arbuckle came to his death, were arraigned in the Police Court to-day and held in \$2,500 bonds each for appearance on Monday.

TELEGRAPHIC NOTES.

Sir Benjamin Ward Richardson, a celebrated English physician, died in London yesterday, aged 68 years.

The working hours in the shops of the Missouri Pacific Iron Mountain road in Arkansas have been increased to nine hours a day.

W. J. Bryan, who arrived in Springfield, Missouri, yesterday from a hunting trip, delivered two speeches in that city last night and then left for Denver.

George W. Ferris, who built the great wheel which bore his name at the World's Fair, is dying at the Mercy Hospital at Pittsburg of liver complaint.

The apron of Mrs. Addie Dilce of Los Angeles caught fire from the stove and her clothes were entirely burned from her body and her flesh roasted. Her injuries are fatal.

Dun's Weekly Review says the volume of business continues on the increase. Over 380 establishments have started work since election and at least 300 have increased their working force.

The Bank Examiner has taken charge of the First National Bank at Saginaw, Michigan. The capital stock is \$100,000 and the last official statement showed a surplus of \$60,000 and deposits of \$300,000.

At the Nebraska State Irrigation Convention Matt Dougherty showed the comparative cost of perpetual water rights under the district law and from private corporations to be \$3.50 and \$10 an acre respectively.

Judge Slack has ordered that the deeds to half a million dollars worth of property of the Fair estate held by Mrs. Nettie Craven be produced in court on Monday for the inspection of those interested in the case.

Senator Morgan of Alabama says he does not look for any action on the Dingley tariff or the financial question at the coming session of Congress. As a Democrat he is willing for the Republicans to pass the Dingley bill, but he does not believe the Republicans leaders desire to do so.

Maud Lewis of St. Louis convicted of the murder of State Senator Morrissey was out on bail pending an appeal to the Supreme Court. The court affirmed the judgment and the woman gave herself up to the authorities and goes to the penitentiary for fifteen years.

William Haas assaulted the young wife of his employer, W. A. Brader, at Cincinnati last July. He pleaded guilty and left it to the Court to fix the degree of the crime. Judges Evans and Wilson yesterday adjudged Haas guilty of murder in the first degree.

Helmas Romaine of Patterson, New Jersey, reputed to have been a millionaire, committed suicide yesterday by shooting himself. His aged mother died three months ago and her death had a depressing effect upon him and he continually complained of being ill.

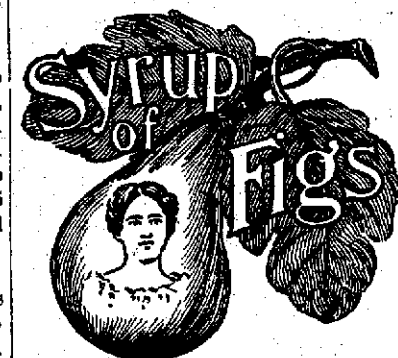

Charles F. Joy, elected to Congress in St. Louis by a large majority, is liable to be ousted under the Parity of Elections Act. He was authorized to spend \$539, and his statement shows that he exceeded that amount by \$204. He said he did not know how much he was authorized to spend.

The report of a probable sympathetic strike of miners in other camps than Leadville, Colorado, is said by officers of miners' unions to be unfounded. The militia is still guarding the mines at Leadville. There are 735 uniformed men in town besides 200 emergency men, at an expense to the State of \$2,000 per day.

It is thought the Kansas Legislature may enact a law making Mexican silver dollars a legal tender in that State. Should it do so the question will be taken to the Supreme Court of the United States. The constitution of the United States declares that no State shall coin money, emit bills of credit,

or make anything but gold and silver coin a tender in payment of debts. Whether making Mexican dollars a legal tender would be in violation of that provision would be a question for the courts.

William Roe, alias Moore, has been found guilty of the murder of Mrs. Greenwood at Napa, California. In 1891 two masked men entered the home of the old couple for the purpose of robbery. Falling in finding booty they forced Mrs. Greenwood to take poison, from the effects of which she died, and Captain Greenwood was shot and dangerously wounded. Carl Schmidt was convicted and sentenced to State Prison for life and is now in the insane ward at San Quentin. Last September Roe was in Los Angeles under the name of Moore and confessed while under the influence of liquor that he killed Mrs. Greenwood and several other persons. He was taken to Napa, indicted and convicted.

Gladness Comes

With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be recommended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

APPORTIONING THE SPOILS.

A Number of Patriots Meet at the Capitol to Distribute the Pie.

A large number of patriotic gentlemen, who think that by reason of their voting against the interests of Nevada and in favor of the gold trust, they have earned the good will of Mr. Hanna and deserve recognition from the "powers that are to be" assembled at Carson yesterday to discuss the Federal pie question and the distribution of the patronage. The meeting was regularly organized and on motion it was decided to ascertain the number of offices at the disposal of the incoming administration and also the number of candidates for each office. One member called attention to the Civil Service act and inquired if it did not stand in the way of some of the aspirants. One or two suggested the adoption of a resolution requesting Mr. Hanna to urge the repeal of the Civil Service act. Another said those civil service regulations were not binding on the new administration, while it was a fact that the party in its National platform had repeatedly declared in favor of civil service reform, it was not binding upon the party. "Why," said he in a fine burst of enthusiasm, "didn't you declare for free coinage time and again and didn't we come out squarely against it this year." This sentiment was applauded and when the enthusiasm subsided it was ascertained that there were three positions in the mint. One or possibly two at the Indian reservations, the Surveyor General, United States District Attorney and the United States Marshal who did not come under the civil service rules. It was found that there were from three to half a dozen candidates for every office and from ten to twenty for every subordinate position in the mint and at the Indian reservations if those confounded civil service rules can be repealed or abrogated.

The meeting was not as harmonious as could be desired as there were too many candidates and too few offices, and several declared that they would not abide by the action of the bosses, who wanted the choicest positions, but would not independently and present their claims for the places they desired.

Alabama.

It is six years since "Alabama" was produced at the Madison Square Theatre, New York, and since that time it has been a continued success. The author, Mr. Augustus Thomas, at that time was entirely unknown, except to newspaper men as a brilliant description writer. In one night he became famous, and since that time he has produced several successful plays. "In Mizouza," in which Mr. Nat Goodwin has added to his laurels, is the work of Mr. Thomas, as well as "Rackless Temple," "A Man of the World," "The Burglar" and the new play "Chimmie Fadden." But the success of "Alabama" is not entirely due to the exquisite beauty of the play; it is also due to the fact that the high standard of the company has always been maintained. When the play is produced at the Opera House the following well known and clever people will be seen: Clement Bainbridge, Fred Mower, Harry M. Allen, L. P. Hicks, W. W. Wadsworth, Robert Connors, F. W. Kennell, Francis Nelson and the Misses Ethel Irving, Helen Weatherby, Florence Crosby and Kate Dooling.

A Card from the Management of the Glee Club Concert.

There is a misunderstanding that the coming Glee Club concert is under the management of the Nevada State University or the Nevada football team. This is not the case, but has been run entirely by myself.

It was necessary that in order to insure expenses a certain number of good seats should be reserved for those who assured me that they would be present, even before the tickets were printed. It was merely an oversight on my part that the fact of these seats being reserved was not published. There are still plenty of good seats not taken. The listed people have had first choice and the general public (i. e. those who did not promise to buy seats) have not had a chance yet and the probabilities are that there will not be enough for all.

I am sorry that this dissatisfaction has arisen among the people of Reno and will cheerfully refund the cost of tickets to those who wish it.
F. P. TAYLOR,
Manager of Glee Club.

Highest of all in Leavening Power.—Latest U. S. Gov't Report

Royal Baking Powder

ABSOLUTELY PURE

Dissatisfaction and Confusion.

Considerable dissatisfaction was expressed yesterday about the streets regarding the rather peculiar method adopted in reserving the seats for the announced entertainment by the Berkeley Glee Club. Many tickets were sold with the understanding that the box sheet would be out in time for the purchasers of tickets to select seats, but to the surprise of a great number it was found that nearly all of the dress circle of the opera house had been previously reserved. If it was the intention to make the affair select it was useless to call upon the general public to buy tickets and it is reported that a good many will return them and ask for their money. Mr. Taylor, who has the management of the affair, publishes a card in another column relieving the University students from any responsibility in the matter and doubtless the public will understand it, but the unfortunate confusion that has occurred will have a tendency to injure other entertainments given by our own boys. The least that can be said is that where the general public is solicited to contribute patronage to an entertainment there should be no favorites, and Mr. Taylor may profit by his experience in Reno.

The Glee Club Concert.

Following will be the attractive programme which will be rendered by the twenty-five students from Berkeley on the 27th of November.

PART I.

"Estudiantina," Locomo Glee, Banjo and Mandolin Clubs.
"The Glee Club," Mr. Fred Knight and the Club.
Selection, "Drinking Song," Mandolin Club.
"Drinking Song," Glee Club.
Specialties, "Brick" Mores.
"Love My Love," Intermission.

PART II.

Selection, "The Winning Tugboat," Banjo Club.
"The Winning Tugboat," G. Thompson's Glee Club.
"Old Cabin Home," Negro Melody.
Selection, "My True Love is a Shepherdess," Glee Club.
"My True Love is a Shepherdess," Glee Club.
Medley, "We Welcome you to the Glee Club."
Glee, Banjo and Mandolin Clubs.
Besides these the Club always keeps a plentiful stock of comic and popular songs at their tongue's end.

Churches in Nevada.

The Elko Silver Tidings says there are about 32 Protestant churches in Nevada, distributed as follows: M. E. Churches 14, Presbyterian 8, Episcopal 6, Baptist 1, Congregational 1, Unitarian 1, Christian or Campbellite 1. There are about 24 church edifices and only about 21 ministers of all denominations, 17 of which are west of Winnemucca, leaving only 4 to occupy the vast territory between Winnemucca and Ogden, a distance of about 420 miles and extending north and south about 300 miles. In the bounds of this territory there are some 10 towns with populations ranging from 100 to 1,200 people and no preaching services in the towns. What a field for missionary work!

Fabio Romani.

Alden Benedict's Fabio Romani is one of the strongest, best acted and best dressed plays ever presented before a Reno audience. Mr. Alden Benedict is an agreeable as well as a talented actor, and in this play he has two characters that are well suited to his style of range. He is well supported by Miss Olive West and a good company. The scenery is the brilliant and effective, especially the Bay of Naples and the eruption of Vesuvius. The fire and other dances, by Miss Grace Hunter, are said to be startling and wonderfully beautiful. This clever company appear at the Opera House, Thursday, November 26th.

Viava Cures.

Have you catarrh? Use liquid Viava. Is your blood poor? Use Viava tonic. Have you stomach trouble? Use Viava tablets. Have you a cold? Use Viava cerate. Have the children burned themselves? All to be found at Mrs. B. E. HUNTER'S, Fourth Street.

Electric Bitters.

Electric Bitters is a medicine suited for any season, but perhaps more generally needed, when the languid, exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alterative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in counteracting and freeing the system from the malarial poison. Headache, indigestion, constipation, dizziness, yield to Electric Bitters. Fifty cents and \$1 per bottle at S. J. Hodgkinson's drug store.

Buckley's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns and all skin eruptions, and poisons of every kind. It is guaranteed to give perfect satisfaction or money refunded. Price 25c per box. For sale by S. J. Hodgkinson.

THE WALDORF'S OWNER.

A \$5,000,000 Investment Which Mr. Astor Has Seen but Once.

William Waldorf Astor has \$5,000,000 invested in the Waldorf hotel and has never been under its roof but once, only to visit a friend who happened to be staying there. He drove up to the ladies' entrance, walked through the hall about 50 feet to an elevator, got out at the fifth floor, went to Mr. Kismet's room, remained half an hour or more, rode down the elevator, walked to his carriage without looking to the right hand or the left and drove away. He has been in New York several times since his hotel was completed, but this is the only time he has ever entered the doors. Whether his indifference is a lack of affection or no one seems to know. The managers of his business, who are old family friends and occupied a similar relation with his father, submitted to him the plans of the architect before construction was begun, and they were approved by him, and he, of course, advised as to all that relates to the property. But he never goes there. A friend suggests that his peculiarity may perhaps arise from the fact that his late wife took an active part in planning and particularly in selecting the decorations of the house, but one would suppose that would increase his interest in it.

A special reason for Mr. Astor to feel an attachment for the Waldorf is found on the first floor, where the dining room of his grandfather is exactly reproduced. When the old mansion was torn down to make way for the hotel, the architects carefully removed the decorations from the walls of the original dining room, the old fashioned marquetry floor, the window frames and doors, the fireplace, the chandeliers, and in fact, all the furnishings and furnishings which are of black walnut, handcarved, were stored away and then re-set in what is known as the Astor memorial room, but William Waldorf never has had the curiosity to see it.—Chicago Record.

WORDEN TO BE REPRIVIED.

In Order That His Previous Mental Condition May be Fully Investigated.

SACRAMENTO, November 21.—Governor Budd has decided to grant a reprieve until April next to S. D. Worden under sentence of death for wrecking the train near Sacramento during the railroad strike of 1894 which caused the death of Engineer Clark.

Governor Budd will in the meantime thoroughly investigate the case to determine whether Worden was mentally responsible at the time the crime was committed. Great influence is being brought to bear on Governor Budd to commute Worden's sentence to life imprisonment. Prominent people all over the country have signed a petition to that effect. Among those who have interceded to save him are President Cleveland and Collis P. Huntington.

For Over Fifty Years.

Mrs. Winslow's Soothing Syrup has been used by millions of mothers for their children while teething. If disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for children teething. It will relieve the poor little sufferer immediately. Depend upon it mothers, there is no mistake about it. It cures Diarrhoea, regulates the Stomach and Bowels, cures Wind Colic, softens the gums, reduces inflammation and gives Tone and Energy to the whole system. Mrs. Winslow's Soothing Syrup for children teething is pleasant to the taste and is the prescription of one of the oldest and best female physicians and nurses in the United States. Price twenty-five cents a bottle. Sold by all druggists throughout the world. Be sure and ask for "Mrs. Winslow's Soothing Syrup."

AN IMPORTANT DIFFERENCE.

To make it apparent to thousands, who think themselves ill, that they are not afflicted with any disease, but that the system simply needs cleansing, is to bring comfort home to their hearts as a positive condition is easily cured by using Syrup of Figs. Manufactured by the California Fig-Syrup Company only, and sold by all druggists.

Football Game.

Wadsworth vs. Verdi on Herman's Plaza at Wadsworth Thanksgiving Day, November 26, 1896. Admission, 25 cents. Game will be called at 3 p. m. sharp. 6-21,

Marvelous Results.

From a letter written by Rev. J. Gundersen, of Diamonddale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist Church at River Junction she was brought down with Pneumonia succeeding La Grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at S. J. Hodgkinson's drug store. Regular size, 50 cts and \$1.

Diphtheria Cure.

The testimony of a prominent physician:
FOUNTAIN CITY, Ind., June 17, 1896.
This certifies that I have been using V. O. in my practice. I have never found any medical preparation in 46 years of practice that is calculated to do so much good in so wide a range of diseases and leave no after bad effects. In Diphtheria it has proved a perfect specific in my hands, and I had rather depend on it alone in that dreadful disease than the whole popular Materia Medica with that left out.
